Diabetes Care Plus

A multi-disciplinary program for people diagnosed with pre-diabetes and Type 2 Diabetes Mellitus (T2DM)

ramsayhealthplus.com.au

Our Program Aim

To provide a multi-disciplinary, individualised, safe and effective program for people with pre-diabetes and T2DM. Participants can be at various stages of their journey, whether that be recently diagnosed or long-standing diabetes.

The program is designed to provide participants with the knowledge and skills to help facilitate and empower self-management of their diabetes.

Program Structure

The program combines education and exercise in a small group environment. Exercises are tailored to your needs and current level of activity.

The program runs for 12 weeks and consists of the following:

- A comprehensive initial and discharge assessment with an Accredited Exercise Physiologist (AEP)
- 10 group exercise sessions, once per week for 1 hour
- 5 group education sessions, every fortnight for 1 hour, following the exercise session

The comprehensive education sessions cover topics including:

- Overview of diabetes and identifying blood sugar ranges (Diabetes Educator)
- Medication and diabetes (Pharmacist)
- Eating for diabetes management (Dietician)
- Label reading and recipe modification (Dietician)
- Exercise and diabetes (Exercise Physiologist)

Partners, family members or close friends are welcome to attend the education sessions.

Cost

The cost will depend on whether you use the Medicare Benefits Scheme (MBS) rebate for T2DM or utilise private health extras cover. Our reception staff will work with you to determine which option is most suitable for you.

The Team:

Our team consists of:

- Diabetes Educator
- Dietician
- Exercise Physiologist
- Pharmacist
- Occupational Therapist and Psychologist (if required)

Referrals

If using the Medicare Benefits Scheme, a referral should be made by your GP.

Referrals should be addressed to:
