

Support for your cancer journey

Ramsay Health Plus at Hollywood Private Hospital can provide you support before, during and after your breast cancer treatment.

Physiotherapy Pre-admission Screening Clinic

We recommend having a physiotherapy screening assessment before commencing breast cancer treatment. There is strong evidence that this will improve your health outcome.

We welcome you to attend our pre-admission screening clinic without cost. Our breast oncology physiotherapist will take you through your appointment which is quick and easy.

We will look at your posture, movement and strength. We also use SOZO, a modern technology to measure your tissue composition and fluid status. You will be given a copy of these measurements to keep as a reference as you move forward through your treatment and recovery.

Ask the receptionist at your specialist rooms to schedule a physiotherapy screening appointment or contact Ramsay Health Plus directly on 9346 6932.

Hollywood Private Hospital
Ramsay Health Plus
Entrance 6, Hollywood Private Hospital
Verdun Street, Nedlands WA 6009
Ramsay Health Plus Reception
(08) 9346 6932
